

Science for Life Award

*The European Society for Separation Science
and Thermo Electron Corporation
recognise the contributions of*

Prof. Dr. Elena Stashenko

*who has shown in her work the application of
separation science in the best tradition and to
the ultimate goal of science, to help realising
the vision of humanity living in creative
harmony with its environment.*

*Prof. Dr. Elena Stashenko has demonstrated
determination and courage in practicing her work
to the common goal, with the noble principles of
affection, curiosity, and responsibility.*

Prof. Dr. Hartmut Frank
